CUSTOMER PORTAL

Self-Service for Your Customers

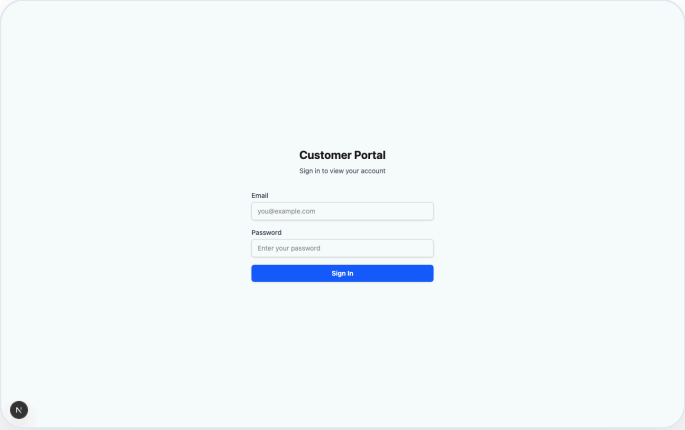
Customers log in to view jobs, approve estimates, pay invoices, and track agreements — reducing phone calls and improving satisfaction.

SECURE ACCESS

Branded Portal Login

Each customer gets a secure login to access their account. Invite customers with one click from the admin dashboard — they receive an email to set up their password.

- Email invite workflow with secure token
- Supabase-powered authentication
- Works on desktop, tablet, and mobile browsers
- Password change and account management



EVERYTHING AT THEIR FINGERTIPS

What Customers Can Do

The portal gives customers transparency into every part of their service relationship — no phone calls needed.

View Jobs

See all past and current jobs with status tracking — new, scheduled, dispatched, in progress, and completed. Full job details including technician info and scheduled times.

Pay Invoices Online

View invoices with line-item detail and pay securely via Stripe Checkout. Supports partial payments with balance tracking. No more chasing checks.

Approve Estimates

Review multi-option estimates (Good / Better / Best) and approve or decline with one click. See recommended options, line items, and totals at a glance.

Track Agreements

View active service agreements, upcoming visits, billing details, and renewal dates. Full transparency on maintenance contracts.

Portal Dashboard

At-a-glance summary cards showing total jobs, open invoices with balance due, pending estimates, and active agreements.

Mobile Responsive

The portal works beautifully on phones and tablets. Customers can approve estimates and pay invoices from anywhere.

SIMPLE ONBOARDING

How Customers Get Access

One-click invites from the admin dashboard. Customers set up their account in under a minute.

1

Open Customer

Navigate to any customer in the admin dashboard

2

Send Invite

Click "Invite to Portal" — an email is sent automatically

3

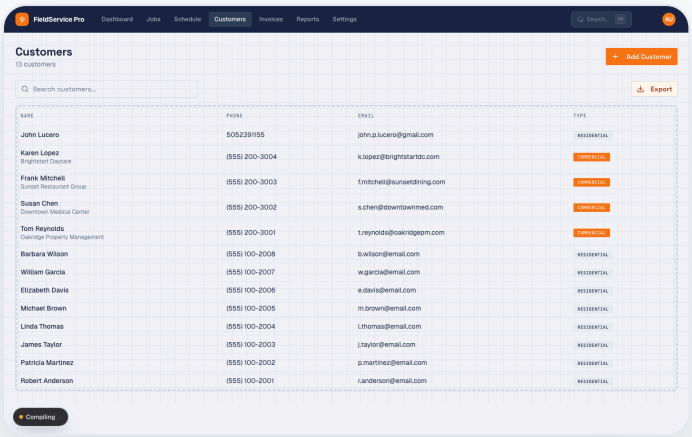
Accept & Set Password

Customer clicks the link and creates their password

4

Self-Service

Customer logs in to view jobs, pay invoices, and approve estimates



ADMIN VIEW

Manage Portal Access from One Place

See all your customers in the admin dashboard. Each customer's record shows their full history — jobs, invoices, estimates, properties, and equipment.

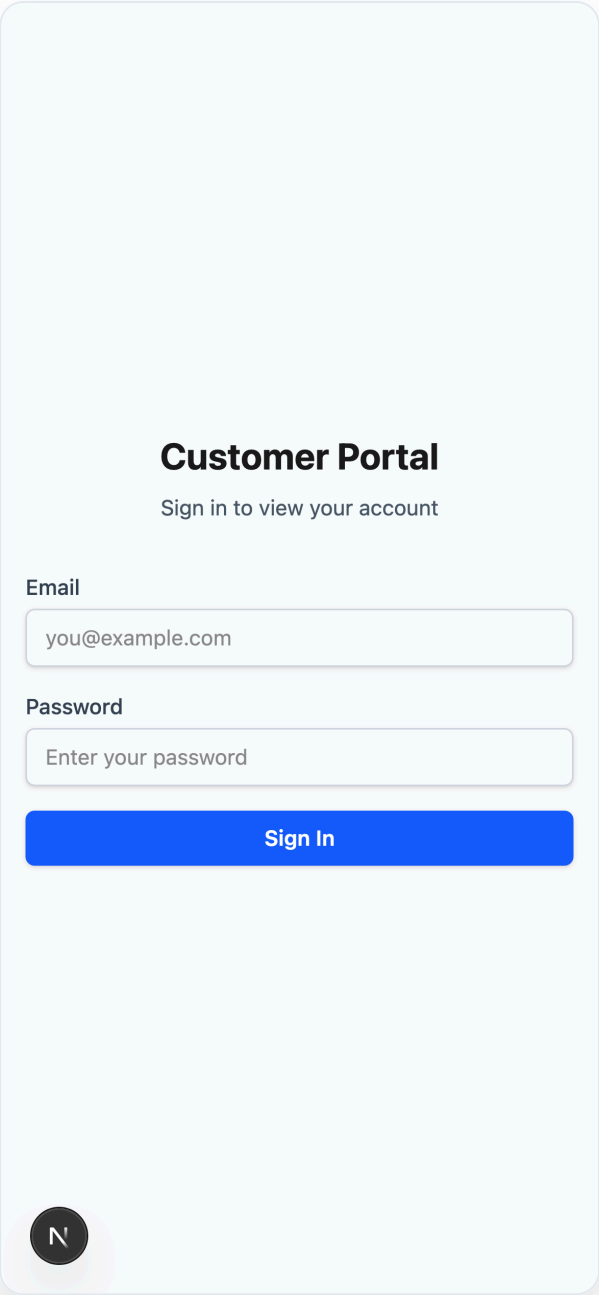
- One-click portal invite from customer detail page
- See portal access status per customer
- Residential and commercial customer types
- Full service history at a glance

MOBILE READY

Works on Every Device

The customer portal is fully responsive. Customers can approve estimates, pay invoices, and track their jobs from their phone, tablet, or desktop.

- Responsive design adapts to any screen size
- Touch-optimized buttons and navigation
- Stripe Checkout works seamlessly on mobile
- No app download required — just a browser



BUILT-IN WEBSITE BUILDER

A Professional Website for Every Business

Each tenant gets a fully managed website with custom branding, pages, services, and online booking — no third-party tools needed.

Comfort Pro HVAC

Home About Services Contact Book Now

Your Comfort Is Our Priority

Professional HVAC services for homes and businesses. 24/7 emergency repairs, installations, and maintenance you can trust.

Book a Service

What We Do

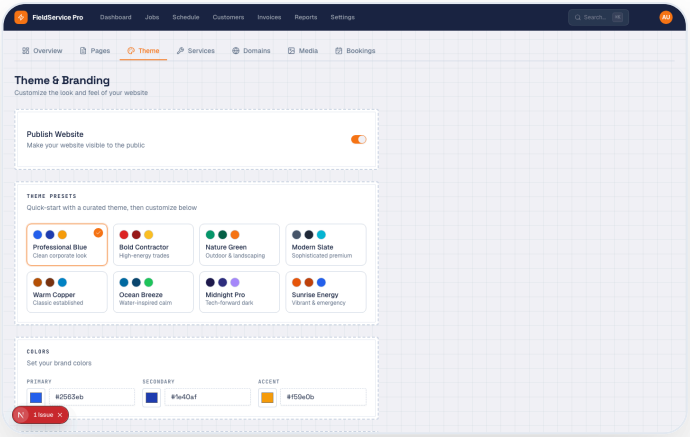
From routine maintenance to emergency repairs, we keep your home comfortable year-round.

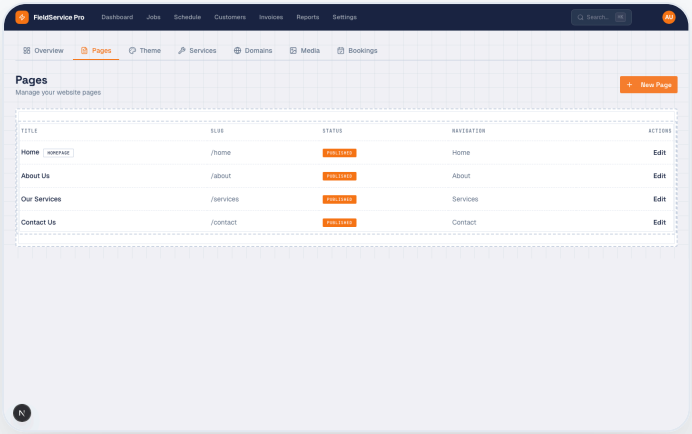
THEME & BRANDING

8 Theme Presets, Full Color Control

Choose from curated theme presets designed for trade service businesses, then customize every color to match your brand.

- Professional Blue, Bold Contractor, Nature Green, Modern Slate, and more
- Primary, secondary, and accent color pickers
- Publish/unpublish toggle for instant control
- Live preview of changes





CONTENT MANAGEMENT

Page Builder

Create and manage website pages with a simple interface. Set one page as the homepage, configure navigation labels, and publish when ready.

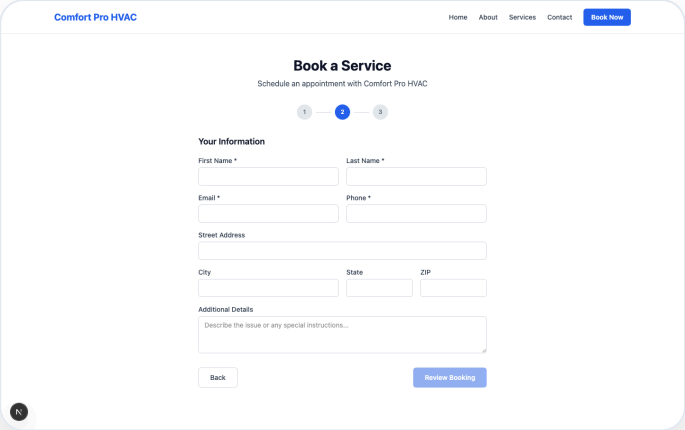
- Create unlimited pages (Home, About, Services, Contact, etc.)
- Set homepage designation with one click
- Custom slugs for SEO-friendly URLs
- Draft/Published status workflow

LEAD GENERATION

Online Booking Form

Customers can book service appointments directly from your website. A multi-step form collects service type, customer info, and scheduling preferences.

- 3-step guided booking flow
- Service selection from your configured list
- Customer info collection (name, email, phone, address)
- Booking requests appear in your admin dashboard



COMPLETE WEBSITE TOOLKIT

Everything Your Website Needs

No need for WordPress, Squarespace, or any third-party website builder. It's all built in.

Media Library

Upload and manage images for your website. Drag-and-drop interface with automatic optimization.

Services Page

Showcase your services with descriptions and pricing. Services are linked to the booking form for easy lead capture.

Custom Domains

Connect your own domain name for a fully branded web presence. HTTPS included automatically.

Booking Management

All online bookings flow into your admin dashboard. Review, confirm, and convert to jobs with one click.

Mobile Responsive

Every generated website is fully responsive. Your customers get a great experience on any device.

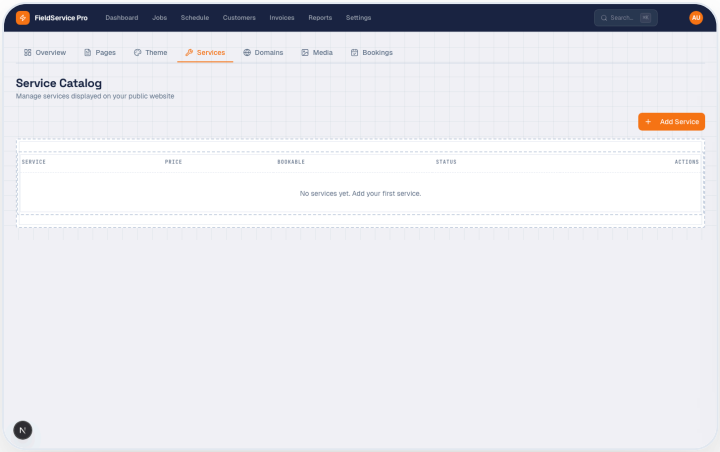
Navigation Control

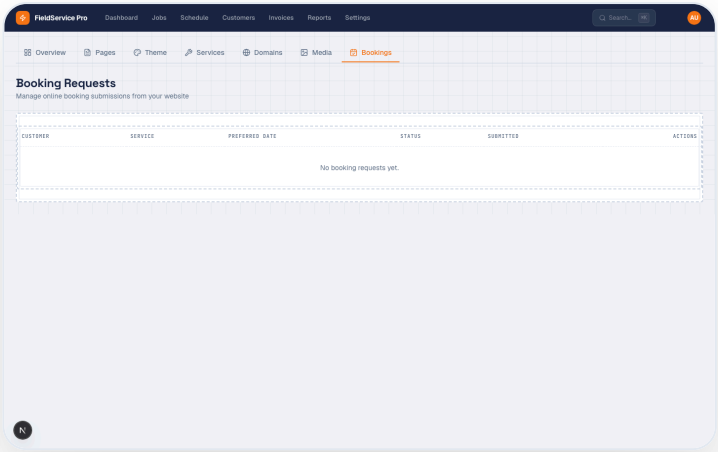
Configure which pages appear in the nav bar and their labels. The "Book Now" button is always prominent.

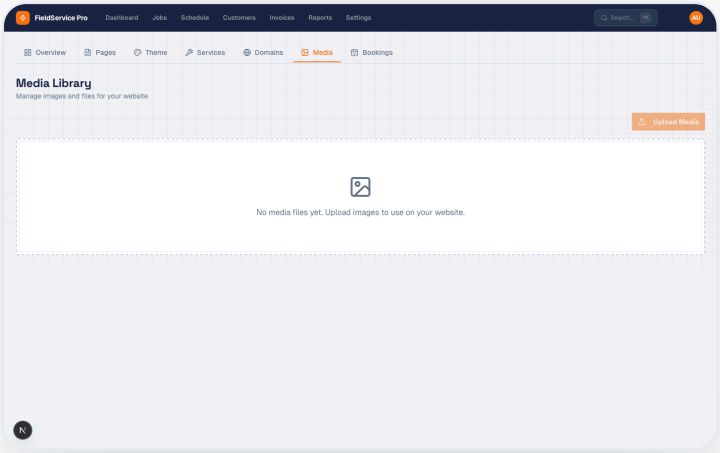
ADMIN DASHBOARD

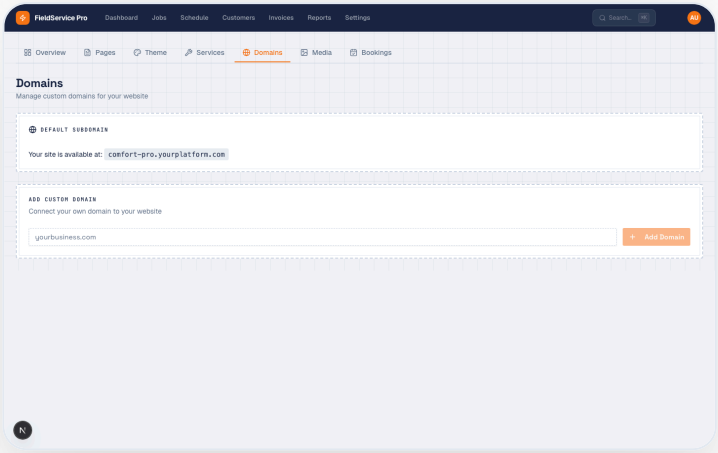
Manage Everything from One Place

The website builder lives inside the same admin dashboard you already use for jobs, invoices, and customers. No separate login needed.









Portal + Website, Included Free

Every FieldService Pro plan includes the customer portal and website builder at no extra cost. Give your customers the modern experience they expect.
